-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission/response filed on 11/02/2007 has been entered.

2. In the above-mentioned response, applicant's traversal regarding election of Group I, only claim 67, by original presentation is acknowledged. The traversal is on the ground(s) that group I (combination) and group II (sub-combination, claims 108-110) are interrelated and therefore can not be restricted.

This is not found persuasive because: as mentioned in the restriction requirement (mailed on 07/03/2007) the combination (claim 67, solid substance) does not require the double wall nanotube of group II to be substantially pure. Also it was mentioned in the restriction requirement that the sub-combination (claims 108-110) has a separate utility (such as display device, diode switch, triode switch etc.). The Examiner has shown the two way restriction requirement test. From applicant's entire

argument, it appears that applicant has omitted attention on the literal term "substantially pure" which was the main basis of determining the restriction requirement.

The Examiner believes that the restriction requirement is deemed to be proper and therefore made FINAL. Claims 108-110 remain withdrawn from consideration. Claims 70, 73-84 and 98-100 were already withdrawn earlier in past. An action on merits including claim 67 is as follows.

3. In view of applicant's submission of Declaration, the prior art rejection of claim 67 is withdrawn and applicant's arguments are considered moot in view of a new ground of rejection as below.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 67 is rejected under 35 U.S.C. 102(b) as being anticipated by Iijima (USPN 5830327, of record).

Iijima et al disclose applicant's claimed solid substance (Figure 2; at least col. 4, lines 15-35) including hollow carbon nanotubes having two (double) layers (at least a1 and a2) of carbon atoms, the nanotubes consisting of two concentric nearly cylindrical graphene layers.

As to the limitation "by more than half by weight", the Examiner interprets this limitation as "anywhere from 51 percentage of weight up to 100 percentage of weight" in a broadest reasonable manner.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ashok Patel whose telephone number is 571-272-2456. The examiner can normally be reached on Monday-Thursday.
